NICK LORENZINI

TECHNOLOGY EXECUTIVE & INNOVATION PIONEER

14316 Talawa Dr
Oregon City, OR 97045
t: 503-929-8491
e: nicholas.lorenzini@gmail.com

PROFILE

14 years of increasing technology leadership and management responsibilities, shaping strategic priorities and competitive alignment for non-profit and public sector enterprises.

Over 20 years of varied development experiences in functional and prototypal languages, to leading large dev teams to build multi-million dollar, modern, single-page apps in highly-political, enterprise organizations.

Strong passion for building team cultures - changing the hearts & minds of diverse teams, under one vision.

HIGHLIGHTS

Led the nation's largest non-profit healthcare provider in adopting modern frontend libraries (React & Redux) to meet modern user product expectations.

Authored a 5-year strategic IT vision for the US Department of Agriculture's programming of an annual $500 million (taxpayer) technology budget.

Postured the US Forest Service to absorb an annual 10% IT budget reduction without loss of user capabilities, through automation and modernization.

Directed the successful migration of a 60+ unique web application suite to a PaaS environment.

Founded the Defense Information Systems Agency's first all-Reserve Servicemember Cyber Defense Detachments.

Cyber Security Author of the 2015 National Infrastructure Protection Plan - Government Facilities Sector-Specific Plan, a White House-issued policy.

CERTIFICATIONS

Project Management Professional (PMP)
Project Management

Certified Chief Information Security Officer (C|CISO)
EC-Council

Certified Ethical Hacker (CEH)
EC-Council

HOW I SPEND MY WORK DAY

- Maximizing Release Periods
- Building Brand Pride of Ownership
- Growing Enterprise Scalability
- Bulldozing Bad Processes
- Accelerating Development
- Solution Engineering
- Promoting a Trust-based Culture
- Improving People & Tech
- Having fun :-)

EXPERIENCE

Sr. Manager, IT Engineering Applications
Kaiser Permanente / June 2019 - Present

Development Manager for Customers & Contracts - a new app for creating & managing healthcare membership contracts across 9 regions of service. This application served as a critical component in a billion dollar IT investment to integrate membership systems across 9 Kaiser regions (nationally) utilizing modern libraries and architecture.

Application Development & Operations Program Lead
United States Forest Service / June 2015 - June 2019

Managed over sixty unique Natural Resource Management applications and their environments (cloud and on-premise service). Led over sixty mixed resources (employees and consultant) for both application development, architecture, database administration and testing teams in support of Forest Service operational needs.

Assistant Director for Strategic Planning, Information Management & Architecture - Temporary Promotion
US Department of Agriculture - Natural Resources & Environment Mission Area / May 2018 - September 2018

Lead for strategic planning and execution of a $450 million dollar IT budget in support of application development, technology and communication infrastructure across the US Forest Service. Negotiating agent for technology governance committees and agency executives.

A FEW MORE EXPERIENCES >>

Policy Program Manager
Department of Homeland Security / November 2014 - June 2015
Lead for the Federal Protective Service's delegations of authority program, which provides delegated-Constitutional authority for Federal Departments and agencies to conduct both law enforcement and security activities. Contributing policy analyst for cyber security in protection of Federal facilities and infrastructure across the United States.

IT Program Manager
Defense Technical Information Center / December 2012 - November 2014
Program and Development Manager for a multi-million dollar, multi-year program to develop a first-of-kind government identity management solution to provide access to both unclassified and classified research & engineering data, and collaboration platforms.

Requirements Analyst - Consultant
Joint Chief of Staff, MYMIC LLC / February 2012 - Decemer 2012
Lead requirements analyst for reviewing military service and agency submissions to address gaps and capability needs within cyber, biometrics, force protection and IT programs. Requirements analysis would lead to the decision-support for establishment, continuation and or closure of major acquisition programs (multi-billion dollar, multi-year programs).

Other Various Positions - Consultant
MYMIC LLC, DISYS LLC / June 2011 - February 2012
Work involved roles served for both the Joint Chiefs of Staff (J8) and Headquarters - US Army (HQDA) within the Pentagon in support of national security, and acquisition program support.

USDA IT Fellowship Cohort
US Department of Agriculture
2018

Signal Corps Officer Leadership
US Army
Signal Corps Fort Gordon
2013

Marine Security Guard School
US Marine Corps
Embassy Security Group
2007

LEADERSHIP PHILOSOPHY

Finding balance has been critical for my teams to be at their best. It's bigger than work/life, but ensuring health (physical, mental and spiritual) is balanced. Every individual is different and can take stress on different.

Building Agile culture wherever I'm at to engrain making change an every day norm. A culture of change dominates the market, and thrives on complex challenges. If I find a culture that is change adverse, I take it to heart to build elasticity and create an environment for continuous learning and inclusion.

Empowering others is one my favorite duties as a leader. I get to show the trust and commitment I have for my teams when I entrust them. One of the first things engrained in me as a professional - everyone is a leader. I rely heavily on teams and delegate in a trust-based environment.
